7. What happens if we are unable to collect your Personal Information?

It is important for us to Process your Personal Information in order to provide our products and services to you. If you do not want your information to be Processed for the purposes set out in this Privacy Policy, you may need to cease using our Platforms, products or services or engaging with us.

You can choose not to share your Personal Information with us. However, if you choose not to provide us with the necessary Personal Information, we may not be able to provide you with some or all of our products or services.

We also require your Personal Information to meet our legal obligations. Where the legal basis for the Processing of your Personal Information is to comply with our legal obligations, a failure by you to provide us with certain Personal Information may cause us and/or you to be in breach of these legal obligations.

8. Who do we share your Personal Information with?

We may share your Personal Information in several different ways.

a) SEEK Group

We may share your Personal Information with any entity or business in the SEEK Group for the purposes set out in this Privacy Policy.

b) Advertisers

If you are a Candidate, you agree that we may share your Personal Information with Advertisers when you apply to a job advertisement on our Platforms.

By applying to a job advertisement, you agree that we may share the information in your Profile and in your application with the relevant Advertiser and that your information may be stored in:

- i) our Advertiser Centre on behalf of the Advertiser;
- ii) the Advertiser's careers platform; or
- iii) the Advertiser's chosen recruitment software.

We do not take responsibility for, and cannot ensure the security of, your Personal Information stored by the Advertiser outside of our Platforms.

Any questions you have relating to a job advertised with us, your job applications and/or the status of your job applications should be directed directly to the Advertiser.

Depending on your Profile visibility settings, we may also share your Profile with Advertisers via our Talent Search database product, which enables Advertisers to view a Candidate's Profile (and any Personal Information included within that Profile) when searching for Candidates. Please see section 13 for more information on your Profile visibility settings and when and where your information may be accessible by an Advertiser.

To apply for some job advertisements, parts of your Profile will be shared with the Advertiser. Some Advertisers may also require you to answer a list of questions selected by that Advertiser as part of your job application. By answering the Advertiser's questions, you acknowledge that we will provide your answers to that Advertiser and may use your answers to populate your Profile and enable Advertisers to surface that information in your Profile when using Talent Search.

We will notify you when your Profile will form part of your application. We will also specify which parts of your Profile will be sent to the Advertiser with your application.

Please note that if you choose to share your Profile, your resume or any other application information with Advertisers, these Advertisers may intentionally or unintentionally share this information with other parties (including where you apply to a job advertisement listed by a recruiter who then shares your information with the underlying employer for the advertised job). The use or sharing of your information (personal or otherwise) by these Advertisers, and storage of your information in Advertisers' systems external to our Platforms, is not within our control and we cannot accept responsibility for their conduct or the security of their systems. Advertisers are required by us to comply with all applicable laws, including relevant obligations relating to the use and disclosure of Personal Information that are outlined in the

Candidates without Profiles will also be required to create a Profile when they first apply for a job on our Platforms.

A Profile may include a resume, employment and educational history, contact details, salary expectations, preferred job classifications, licences, certificates, skills, languages, a personal summary, locations and your Approachability Signal.

In the "About your next role" section of your Profile page:

- A. You can turn your Approachability Signal on or off. You can only turn on your Approachability Signal when your Profile visibility setting is set to 'standard' or 'limited' (see below for more details); and
- B. You can select the preferred locations for your next job. If you apply to a job advertisement where the job location is not listed in your preferred locations, the new location will automatically be added to your list of preferred locations.

Advertisers can use Talent Search to search for Candidate Profiles and contact relevant Candidates. These Advertisers may be located outside of your Home Location. However, a Candidate will only be visible to Advertisers when they are searching for Candidates in locations listed by that Candidate as a preferred location (including Home Location) and any location which the Candidate has inserted in a resume and stored on their Profile page.

Advertisers may use Talent Search to search for and contact potential Candidates, and Candidates can decide how much of their Profile they wish to share with Advertisers by selecting one of visibility settings set out in the table below. Notwithstanding the visibility settings chosen by you when creating your Profile, by applying to a job advertisement, both your job application and parts of your Profile will be shared with the relevant Advertiser. Candidates can amend their Profile prior to applying (see section 8(b) of this Privacy Policy).

Standard	Limited	Hidden
<p>If you select a “Standard” visibility setting for your Profile, then:</p> <ul style="list-style-type: none"> • your Profile can be seen by Advertisers utilising Talent Search; • we may parse information from your resume to populate your Profile, and a preview of your resume can be seen by Advertisers utilising Talent Search; • if an Advertiser wishes to purchase access to your Profile, your full Profile including contact details and your uploaded resume will be provided to the relevant Advertiser; and • an Advertiser may either contact you via the details contained within your resume or via a Talent Search Connection Method. 	<p>If you select a “Limited” visibility setting for your Profile, then:</p> <ul style="list-style-type: none"> • your Profile can be seen by Advertisers utilising Talent Search (but Advertisers cannot view or purchase your resume and contact details); and • an Advertiser cannot view your contact details contained within your resume but may contact you via our Talent Search Connection Method. 	<p>If you select a “Hidden” visibility setting for your Profile, then:</p> <ul style="list-style-type: none"> • your Profile is completely hidden which prevents Advertisers from viewing your Profile via Talent Search; and • an Advertiser cannot contact you.

Candidates can modify their Profile visibility settings at any time, by logging in to their account and accessing the ‘Profile visibility’ section under the Profile page.

To delete your Profile, you will need to delete your entire account with us as per section 13 of this Privacy Policy.

ii. Sharing your Profile

You can share a summary version of your Profile via a shareable link (**Shared Profile**). Once logged into your Profile, Candidates can elect to share their Shared Profile by generating a shareable link, then copying and sharing that shareable link to their Profile.

Your Shared Profile will include your name, personal summary, career history, education, skills and languages, licences and certifications (and any credentials verified with Certsy).

In sharing a link to your Shared Profile, you acknowledge that anyone with the link to your Shared Profile:

- A. will be able to see the information from your Profile listed above; and
- B. will be able to reshare and reuse that link.

You may turn OFF the ability for people to access your Shared Profile in the Profile visibility settings for your Profile at any time. Whilst sharing your Profile is turned ON, those with the link to your Shared Profile will continue to be able to view and share the information about you as set out above. Anyone with your link can view your Shared Profile. However, your Shared Profile is not otherwise searchable by the public.

When you share your Shared Profile, you will not be sharing your:

- A. Contact information, such as email, phone number or live in location.
